Feeding Directions

Feeding Recommendations:

SWEETLIX® 14:1:14 High Mag Mineral is a high magnesium mineral formulated to be self- fed. **SWEETLIX® 14:1:14 High Mag Mineral** helps your animals attain maximum performance by providing a balanced intake of supplemental minerals and vitamins. All ingredients are selected for high biological availability and stability to deliver optimal nutrition to your livestock. **SWEETLIX® 14:1:14 High Mag Mineral** should be fed when supplemental magnesium is needed to balance the ration. Four (4) oz. of this product provides 16 g magnesium and 3 mg selenium.

Feed at the rate of 2 to 4 ounces per head per day. Provide one covered feeder for every 20 to 30 animals. Locate each mineral feeder near a clean, fresh source of water. Mineral consumption levels will vary depending upon the mineral status of the animals. Provide clean, fresh water to animals at all times.

CAUTION: USE AS DIRECTED. Consumption of selenium should not exceed 3 mg per head per day.

WARNING: This product, which contains added copper, should not be fed to sheep or any species that have a low tolerance to supplemental copper.

This Product Information Sheet is not intended to replace the Product Label.
Always read the Product Label for the most current nutrient content and feeding directions.
