## Feeding Directions

### Feeding Recommendations:

**SWEETLIX® Wheat Pasture Mineral with Bovatec®** should be mixed with roughages or grains to provide not less than 60 mg nor more than 300 mg lasalocid per head per day for the stated drug claim. Mix 500 lbs of **SWEETLIX® Wheat Pasture Mineral with Bovatec®** with 1,500 lbs of roughages or grains to provide 180 mg lasalocid per pound of mixed feed. Feed drug continuously at a rate of 60 to 300 mg lasalocid in at least 1 lb. of feed per day for the stated drug claim.

**Indications for Use:** Intake of lasalocid in excess of 200 mg per head per day have not been shown to be more effective than 200 mg/ head/ day.

Provide fresh, clean water to all animals at all times.

*Bovatec® is a registered trademark of Zoetis Inc.*

**CAUTION: USE AS DIRECTED.** The safety of lasalocid for use in unapproved species has not been established. Do not allow horses or other equines access to feeds containing lasalocid as ingestion may be fatal. Mix thoroughly with grain and/ or roughage prior to feeding. Feeding undiluted or mixing errors may result in excess lasalocid concentration, which could be fatal to cattle and sheep. Consumption of selenium should not exceed 3 mg per head daily.

**WARNING:** A withdrawal period has not been established for lasalocid in pre- ruminating cattle. Do not use in calves to be processed for veal.

**WARNING:** This product, which contains added copper, should not be fed to sheep or any species with a low tolerance to supplemental copper.
