Sweetlix

LIVESTOCK SUPPLEMENT SYSTEM

#11421

SWEETLIX® 3- In-1 Pressed Block

Features & Benefits

- Multi- purpose mineral and vitamin block for cattle and horses
- Superior to trace mineral salt blocks
- Palatable source of high quality minerals and vitamins
- Available in easy to handle 40- pound pressed block
- Weather- resistant block can be placed directly in pastures with cattle or horses
- No costly covered feeders or bunks required

Nutrient Guarantee

Calcium, Min	4.75%	Copper, Min	40 ppm
Calcium, Max	5.75%	Manganese, Min	150 ppm
Phosphorus, Min	4.00%	Selenium, Min	21.6 ppm
Salt, Min	15.00%	Zinc, Min	130 ppm
Salt, Max	18.00%	Vitamin A, Min	100,000 IU/ lb
Magnesium, Min	1.00%	Vitamin D-3, Min	10,000 IU/ lb
		Vitamin E, Min	100 IU/ lb

Product Ingredients

Processed Grain By- Products, Salt, Monocalcium Phosphate, Dicalcium Phosphate, Molasses Products, Roughage Products, Calcium Carbonate, Calcium Hydroxide, Magnesium Oxide, Hydrogenated Soybean Oil, Manganous Oxide, Manganese Sulfate, Zinc Oxide, Zinc Sulfate, Copper Sulfate, Sodium Selenite, Ethylenediamine Dihydroiodide, Calcium Iodate, Cobalt Carbonate, Vitamin A Supplement, Vitamin D-3 Supplement, Vitamin E Supplement and Mineral Oil.

Feeding Directions

Feeding Recommendations:

1. Feed at a rate of one block per 5 to 15 head of cattle or horses. All animals should have equal access to blocks. Timid and smaller animals need their share.
2. Place blocks where animals congregate. Locate blocks throughout the pasture at loafing, grazing, feeding and watering areas. Maintain adequate distance between blocks to minimize crowding - 10 feet minimum.
3. Animals should not run out of blocks. When a block is two- thirds consumed, provide a new block near it. Place very small pieces in a feed trough to be cleaned up.
4. Cattle or horses should consume about 5 ounces per head daily based on a 1,000- pound animal. When animals consume the block at the recommended rate, it will supply 3 mg of supplemental selenium.
5. Blocks can be fed to animals in confinement. Exact location of blocks to obtain desired consumption will vary between confinement feeding programs.
6. Feed as the only self- fed source of salt, minerals and vitamins. Provide a source of clean, fresh water at all times.

CAUTION: USE AS DIRECTED. Consumption of selenium should not exceed 3 mg per head per day.

WARNING: This product, which contains added copper, should not be fed to sheep or any species with a low tolerance to supplemental copper.

This Product Information Sheet is not intended to replace the Product Label.
Always read the Product Label for the most current nutrient content and feeding directions.
