

PREMIUM BLEND ALFALFA

JOHNSTONTM
EST. *Seed Co* 1893

DESCRIPTION

Premium Blend Alfalfa is a combination of proprietary varieties that maximize performance specific to western soils and climate with exceptionally high forage quality and excellent winter survival. Premium Blend Alfalfa is designed for a wide range of soils for optimal forage yields. It also performs well in dry and naturally rain fed soils. It has a solid disease, insect and nematode resistance package that helps defend itself in adverse environments. Premium Blend Alfalfa is coated with APEXTM and comes pre-inoculated and treated with APRON XL®.

Southern Root-Knot Nematode	MR
Stem Nematode	R-HR
Pea Aphid	R

WINTER SURVIVAL & ADAPTATION

Trait	Rating
Fall Dormancy	4
Winter Survival	1.9
Stand Persistence	Excellent
DRI	30

SINCE 1893, JOHNSTON SEED COMPANY HAS BEEN “PLANTING” SEEDS OF SUCCESS...

It was over 125 years ago when Willis B. Johnston began selling seeds, feed, and coal to the early day settlers. Little did W.B. know that it was the beginning of something special. Today, the focus is specialty seeds, not sold just locally, but marketed on six different continents around the world. Johnston Seed continues to sell seed of all traditional crops like wheat, rye, corn, sorghum, and soybeans, but producing and marketing specialty seeds like proprietary bermudagrasses, buffalograss, wildflowers, native grasses, wildlife seeds, and cover crops are now the focus of Johnston Seed. One thing has not changed since 1893, and that is service. W.B. instilled a work ethic and a desire to provide the best seed for his customers. The management and employees of Johnston Seed have continued this tradition with great service and products, and we want to be your “seed” for success.
