## Classic Cow-Calf CTC 6000 and ClariFly®

Product number: 72118

### Product Information

SWEETLIX Classic Cow-Calf CTC 6000 ClariFly® Mineral helps your animals attain maximum performance by providing a balanced intake of supplemental minerals and vitamins.

- For control of active infection of anaplasmosis caused by *Anaplasma marginale* susceptible to chlortetracycline in beef cattle
- An insect growth regulator, which prevents the development of house, stable, face and horn fly larvae in the manure of treated cattle.
- Medicated mineral for further manufacture of feed
- Contains 6% phosphorus
- Delivers enhanced levels of minerals and vitamins at 150% of NRC recommended level
- Formulated with a safe and effective dietary source of selenium with Sel-plex® selenium yeast
- No additional sources of salt or minerals are required
- Easy to follow mixing directions on the label

### Feeding Instructions

Cow-Calf CTC 6000 ClariFly® Mineral helps your animals attain maximum performance by providing a balanced intake of supplemental minerals and vitamins.

Thoroughly mix 500 lbs. of SWEETLIX® Classic Cow-Calf CTC 6000 ClariFly® Mineral with 1,500 lbs. of non-medicated feed. Feed one pound of this medicated mixture to provide 750 mg CTC and 68 mg diflubenzuron per head per day. Cattle over 700 lbs. should receive 0.5 mg CTC/lb. body weight per day and should receive 4.55 mg diflubenzuron per CWT daily in complete feed on a continuous basis for the stated drug claims. 750 mg CTC is the recommended rate to treat a 1,500-lb. animal.

For additional information, please contact your SWEETLIX representative.

**CAUTION:** Use as directed. Consumption of selenium should not exceed 3 mg per head per day.

**WARNING:** A withdrawal period has not been established for this product in pre-ruminating cattle. Do not use in calves to be processed for veal. This product, which contains added copper, should not be fed to sheep or any species that have a low tolerance to supplemental copper.

ClariFly® is a registered trademark of WelMark International.

### Nutrition Information

Active Ingredient Concentration	Chlortetracycline 6,000 g/ton; Diflubenzuron 0.06%
Calcium, Min	12.00%
Calcium, Max	14.40%
Phosphorus, Min	6.00%
Salt, Min	14.00%
Salt, Max	16.80%
Magnesium, Min	1.00%
Cobalt, Min	15 ppm
Copper, Min	1,500 ppm
